aspired / aspirant                      breath as the little thing that might cloud our

jurisdiction

the hot breath of the sleeping                      auricle

Georgia                      and then did magnificent things burn?

distantly aroused

before becoming minute or heroes or pastures or pastures filled with furniture

agrarian sift asepses

olio war cave few

wee marplot tautly

approximately close to the sounds of the disinterested                      sleeping miracles

by perforated sigh / the humid gasp

                    they say to travel backwards in time

                    they say we traveled together                      the second time

Oedipus ain't bad as far as tragedies go                      woes

sulfa

it occurs just that in this instant

you are certainly

clew

disparate hot showers

evil digestion

avower

I won't even mow your lawn because it just ain't right

you're not free like you used to be

more a tangled expiration

sibilant when you're occupying

unworn

accruals

it occurs now

what makes a hallucination

mariposa

something that ticked      around the location  
simplified
